Jeanette Tirado (Plaintiff); PREPA (Defendant); Luma Energy LLC (Defendant); Quanta Services Inc. (Defendant); Luma Energy Services LLC (Defendant); P3A (Defendant)	N/A	N/A	N/A	N/A	Adv. No 21-00029	22-1738 (First Circuit)		X	X			N/A. No damages claimed against P3A. Only declaratory judgment that the transformation contract was null and void for failure to register the same with the Property Registry.	This case has been pending before the First Circuit Court of Appeals for approximately two years with very little movement. The First Circuit has not issued a briefing schedule for briefing on the merits. Instead, the various appellees, including P3A, filed motions to dismiss the appeal as untimely. The P3A also sought dismissal on the basis that the claims against it were disposed of through an abstention order from the Bankruptcy Court that was not properly appealed before the District Court and, hence, became final. Defendants also briefed, at the First Circuit's request, the applicability of the bankruptcy stay to the plaintiff's claims. This case is pending a decision by the First Circuit on the dismissal or stay arguments or, in the alternative, the issuance of a briefing schedule.
